

The SumaGrow® treated cotton (65 acres) produced 69,582 lbs, while the Control cotton (73 acres) produced only 66,837 lbs

SumaGrow® treated produced 1,070.49 lbs per acre versus the Control's 915.58 lbs per acre. SumaGrow® treated Cotton had a 16.92% increase in yield over the control

SumaGrow® treated also produces a higher quality cotton. The control cotton only receives \$.52 per pound versus \$.92 for SumaGrow® treated.

SG Treated 1070.49 lbs x \$.92 = \$989.55
Control 915.58 lbs x \$.52 = \$480.20

\$989.55 vs \$480.20 = \$509.35 (106% Revenue Increase)
